riposa Flex – a piece of sleeping history with a future.

FEATURES

So simple and so convincing! The riposa Flex combines the best values: high-quality engineering and the finest materials – for a superlative ergonomic experience.

Maximum suspension with a low installation height (7 cm) for maximum ergonomic sleeping comfort

High-quality aluminium material: extreme stability and lightness at the same time.

Attractive design, easy to clean

100 % lying surface – the ergonomic Flex supports the mattress across its entire width without any gaps

The low installation height is suitable for almost all bed frames

Ergonomics, functionality and design

The riposa Flex was launched more than 20 years ago as the first aluminium slatted base – a genuine Swiss innovation – since then, its design has been gently and cleverly enhanced over the years.

System.

The right combination for maximum sleep comfort.

A mattress only develops its full potential when it forms an optimum sleep system with the appropriate base. riposa mattresses and bases can be combined individually and adapted to your personal needs. This means that every detail contributes to anatomically correct lying – for maximum sleep comfort and deep regeneration.

riposa Swiss Sleep is an investment in your health – developed with experience and innovation, manufactured in Switzerland.
