SWISS SLEEP

THE FLOATING BOXSPRING BED WITH LIGHTWEIGHT DESIGN.

Aurora

Aurora

The Aurora Boxspring bed features impressively lightweight, elegant design and a floating appearance. The simple geometric design appears graceful, indulges the senses and promises a feeling of security for restful nights. The subtly cubic details bring out the characteristic accents of this riposa classic.

Lightweight, elegant proportions

The lightweight, elegant cubic design creates a modern and harmonious feeling of space in any bedroom.

Floating look thanks to the Cube system

The Aurora is invisibly fixed on the wooden «Cube» base and appears to float above the ground.

Seamless appearance & anti-slip surface

The Aurora bed unit is optionally available in an end-to-end design, with a removable cover and anti-slip surface.

Aurora Relax

Automatically adjustable Boxspring bed with lightweight, elegant proportions.

Relax in comfort

The desired relaxation positions are quick and easy to set at the touch of a button.

Memory function

Your favourite positions can be saved via the memory buttons so that you can simply lie back and relax.

Elegant lightness combined with automatic adjustment

The relax functions are incorporated in such a way that the «Aurora Relax» embodies the typical characteristics of the classic Aurora model for an elegant, lightweight and harmonious look.

For singles or single sleepers

For singles and those who like to sleep on their own, the Aurora Relax is also available in sizes of 120/140 cm.

Special Edition Aurora Nuance

The monochrome Boxspring bed with a fascinating tone-on-tone look.

Swiss designer Jörg Boner has defined six monochrome colour families for the Special Edition Aurora Nuance. The individual parts – cover and feet – of the resulting bed variations complement each other in their tonality. This gives the Aurora Nuance a distinctively stylish, monochrome Boxspring look.

Studio.

Our Boxspring studio in the Glarus region.

In our Boxspring studio in Oberurnen we produce exclusive Boxspring unique pieces every day – each bed bears the personal signature of an experienced employee. Thus the traditional profession of upholsterer, which had almost disappeared in Switzerland, lives on at riposa. Today we are also training new upholsterers in our studio.

riposa Swiss Sleep is an investment
in your health – developed with
experience and innovation,
manufactured in Switzerland.

Technical data & finished size

Aurora – technical data

STRUCTURE

The lightweight-looking but highly stable wooden construction is built according to the principles of Swiss Sleep Technology (SST) and forms the basis of the bed unit. The embedded pocket springs gently absorb the movements of the upper bed. This ensures optimal lying and spring comfort. The entire bed unit is contained in a high-quality padded cover.

«CUBE» BASE / «STILETTO» FOOT

The Aurora Boxspring bed is supported by a black «Cube» base for a fascinating floating effect. The bed can optionally be delivered with the «Stiletto» metal foot, which is supplied as standard on the Special Edition Aurora Nuance.

SEAMLESS APPEARANCE / ANTI-SLIP SURFACE

Optionally, the Aurora bed unit is also available with a seamless appearance, removable cover and anti-slip surface.

HEADBOARDS

Two headboard sizes are available for individual bed compositions: the classic standard height and a higher «Long» version. The Aurora headboard can also be made without button stitching (no tacking/buttons and no horizontal stitching) for the same price.

Aurora Relax – technical data

STRUCTURE

An adjustable Boxspring bed with lightweight proportions and a pocket spring structure. The bed unit is contained in a high-quality padded cover. The bed can be easily and continuously adjusted to the desired relaxation position at the touch of a button. Your favourite positions can be saved via the memory buttons so that you can simply lie back and relax. From 160 cm, the sleep surfaces are in two parts and can be operated in parallel. When using a mattress in one part, it is recommended to initialise the motors regularly.

«STILETTO» FOOT

The «Stiletto» metal foot emphasises the lightweight proportions of the «Aurora Relax» model. The «Aurora Relax» cannot be combined with the «Cube» wooden base.

ANTI-SLIP SURFACE

The Aurora Relax Boxspring bed is fitted with a breathable anti-slip surface.

Please note: the Boxspring beds from riposa are manufactured entirely by hand with care and craftsmanship. Slight sizing differences may therefore occur.

Finished size of model 180 x 200 cm
